

Dazzling Smiles

The White House Dental Clinic, Langney Road, has been awarded a Quality Assurance Compliance Certificate from the local Primary Care Trust.

Dr Paul Hanna, principal dentist at The White House clinic, commented: "This certificate highlights our team's continued commitment to providing the highest standard of dental care to our patients. It is a great accomplishment."

Employing the latest techniques and state of the art equipment, the team at the White House Clinic provide the care, attention and clinical expertise to create the perfect smile. Enhancing and perfecting your smile with the latest dental solutions is a huge confidence builder.

Even for the busiest of people, there is no excuse now. These days many cosmetic dental treatments take only one appointment. Even some elaborate transformations, like new crowns or veneers, can be achieved in just one sitting.

Crowns and veneers can really transform your smile and now thanks to CEREC technology,

these can be made and fitted during a single one-hour visit.

Dental implants provide the ultimate long-term solution for tooth loss and, compared to dentures or bridges, are aesthetically far superior too.

At the White House, Dr Paul Hanna has Again for those who want an instant, whiter, brighter smile but wish to spend as little time as possible on the dental chair, laser whitening is a very effective treatment. It gives great results in dramatically shortened treatment time and avoids the excess heat and sensitivity common with other whitening treatments.

Again for those who want an instant, whiter, brighter smile but wish to spend as little time as possible on the dental chair, laser whitening is a very effective treatment. It gives great results in dramatically shortened treatment time and avoids the excess heat and sensitivity common with other whitening treatments.

Testimonials

"Earlier this year I had my teeth whitened at the White House Dental Clinic. The results are fantastic. I have a whiter, brighter smile. This has really helped with my confidence levels and self esteem. I can't stop smiling now! I'd definitely recommend it to a friend."

Clare, 29, Hampden Park, Eastbourne

"The thought of having a set of dentures filled me with dread. However, following a lengthy consultation at the White House, I decided to get implants. The entire treatment has taken a while, almost eight months from start to finish, but it was well worth the time and money. The implanted teeth look incredible. Like better versions of my own teeth."

Mrs K Hourtis Bober, 64, Eastbourne
